Landmark Supreme Court Ruling Upholds Constitutionality of the Affordable Care Act

Statement from Georgians for a Healthy Future's Executive Director, Cindy Zeldin

"Today's ruling from the United States Supreme Court affirming the constitutionality of the Affordable Care Act is an exciting victory for Georgia's health care consumers. When the Affordable Care Act is fully implemented, no one in Georgia will be denied health insurance due to a pre-existing condition. All Georgians will have a pathway to coverage and the peace of mind that comes from knowing that their families are protected. Georgians for a Healthy Future looks forward to working collaboratively with state policymakers and stakeholders to fully implement the Affordable Care Act to ensure it meets its promise of access to quality, affordable health care for all Georgians."
