Comments		

Now that you have health insurance, here are a few important things to keep in mind:

If anything on your application changes, you need to report it to the Marketplace.

This includes a change in income (increase or decrease), a change in family size (birth, death, marriage, or divorce), or moving to another address. In general, if any of the information that you put on your application changes, you need to report it.

Not reporting these changes may result in owing money back when you file your taxes.

To report life changes you can log in to your marketplace account and update your information or call the marketplace at 1-800-318-2596 for assistance.

You MUST file a tax return

If you received financial assistance to help pay for your health insurance, you MUST file a tax return. This is true even if you do not have any taxable income. If you do not file a tax return you will lose your financial assistance.
