Can I get a tax credit for a Marketplace plan if my employer offers coverage?

Only if the premiums for your employer’s lowest-cost plan are more than 9.5 percent (%) of your family’s income.

1. First figure out 9.5% of your family’s income:
   - My family income $ ________________  LINE A
   - Multiply my family income by .095 = ________________  LINE B

2. Then figure out your premiums for a year:
   - The monthly premium for employer coverage $ ________________  LINE C
   - Multiply the monthly premium by 12 = ________________  LINE D

3. Can I get a tax credit?
   Compare line B (9.5% of your family’s income) and line D (your premiums for a year); which number is bigger?
   - Line B ________________  Line D ________________

   If line B is bigger than line D:
   No I can’t get a tax credit because my premiums are less than 9.5% of my family income.

   If line D is bigger than line B:
   Yes I may get a tax credit because my premiums are more than 9.5% of my family income.
